JUDGING CRITERIA APPLIED TO COMPETITORS

- A. **Timing.** Swing is danced beginning on the downbeat. Timing extends to much finer distinctions than a single beat. It includes whether a competitor is fractionally ahead or behind during a weight change as well as matching the syncopated "swing" of the music.
- B. **Teamwork.** Swing is a connected, partner dance. The demonstration of this connection and the appearance of "lead/follow" or "action/reaction" between the partners is an expected part of any competition. One partner ignoring or "out-dancing" the other, or jeopardizing the safety of others indicates poor teamwork.

- C. **Technique.** How well the competitors execute the movements comprising their dance constitutes technique. This includes, but is not limited to, control of balance and weight, foot placement, bodyline, and articulation.
- D. **Choreography.** The selection and order of movements and transitions executed during a dance comprise choreography. Good choreography demonstrates an intimate connection with the music and its phrasing as well as variety and contrast.
- E. **Musical Interpretation.** How the dancer adjusts the flow of the dance to fit the tempo, mood, and rhythm variations in the music. The musical connection the dancer conveys to the judges while listening to the music.
- F. **Presentation.** Creating an atmosphere of excitement by inviting and generating interest in performance is the desired effect of a good presentation. While providing a good show is one aspect of the presentation, it cannot substitute for good dancing.
- G. **Penalties.** Breach of these Rules shall result in penalties being assessed by the judges corresponding to the level of severity of the breach. Unless defined specifically elsewhere in these Rules, these levels and associated penalties are as follows:
 - i) **Error.** An error is an apparently unintentional breach of these Rules. Each error shall be penalized at the discretion of the judge observing the error. Examples of errors might include unintended loss of contact between partners or loss of balance;
 - ii) **Violation.** A violation is a serious and apparently intentional breach of these Rules. Each violation may be penalized by a drop of one (1) or more positions in the final placement, or disqualification. A violation will be assigned when either a majority of judges or a minority of judges AND the Chief Judge concur that a violation has occurred. The amount of drop in placement will be determined by the Chief Judge and will be based on the magnitude of the violation. Examples of violations might include a lift in a Jack & Jill, a routine in Strictly Swing, or a maneuver that endangers another competitor. All decisions of the judges are final and may not be appealed. The Organizer will not intervene in any judging decisions.
- H. **Restarts.** Restarts will only be permitted in the case of music system failure or another significant failure such as a shoe or costume failure. Restarts will not be permitted for the reasons of contestant dissatisfaction with their performance, music or partner drawn, or duration of the routine. A restart must be requested by the contestants prior to their departure from the competition floor and must be approved by the Chief Judge.

DEFINITIONS

- A. **Aerial.** An aerial is a move where the dancer revolves around his or her lateral axis (i.e. flip) or his or her sagittal axis (i.e. cartwheel). Aerials are prohibited in all competitions except Showcase and Rising Star.
- B. **Breakaway.** A breakaway is a set of symmetric or complementary movements or footwork executed by a couple intentionally breaking contact (except for spins and turns). Breakaways phrased properly to the music are allowed in all competitions, subject to limitations.
- C. **CDS.** Calgary Dance Stampede is a dance event that offers competitions in multiple dance styles.
- D. **Costume.** An attire specifically designed for competition and would not generally be worn for social dancing is considered a costume. Costumes are prohibited in all non-routine competitions. Wearing matching or complementary outfits suitable for social dancing is encouraged in Strictly Swing.
- E. **Entrance.** An entrance is the initial, pre-choreographed segment of a performance, during which the competitors formally enter the competition floor and prepare to dance. Acknowledging one's partner, the judges, or the audience is not considered an entrance. Formal entrances are prohibited in all non-routine competitions.
- F. **Exit.** An exit is the final, pre-choreographed segment of a performance, during which the competitors formally leave the competition floor. Acknowledging one's partner, the judges, or the audience is not considered part of an exit. Formal exits are prohibited in all non-routine competitions.
- G. **Gymnastic Maneuver.** A gymnastic maneuver is any maneuver that illustrates a gymnastic or acrobatic ability that is not part of a recognizable swing pattern. Examples of gymnastic maneuvers might include backflips or cartwheels. Gymnastic maneuvers are prohibited in all competitions except Showcase and Rising Star.
- H. **Lift.** A lift is a move where the dancer is not in contact with the floor and the dancer's weight is supported by the other partner. Lifts are prohibited in all competitions except Showcase and Rising Star.
- I. **Swing Styles.** Swing, Carolina Shag, East Coast Swing, Jitterbug, Lindy, Lindy Hop, Push, West Coast Swing, and Whip are recognized as styles of swing. The Organizer will consider additional styles for recognition prior to a competition's registration deadline.
- J. **Relative Placement.** This is a scoring system that assigns an equal numerical value to each judge's raw scores so that each judge has an equal vote in the final outcome. Relative Placement is now widely accepted at major swing dance events.
- K. **Routine.** Any segment that, in the opinion of the judges, consists of prearranged choreography (to include symmetric or complementary movements or footwork) that does not reflect the music is considered a routine. Routines are prohibited in all competitions except Rising Star and ProAm Routines.

- L. **Side-By-Side.** A side-by-side is a set of symmetric or complementary movements or footwork executed by a couple that is not a clearly leadable derivative of a recognizable swing pattern. Side-by-side segments are often executed with the partners next to each other, both facing the judges, but segments executed in other positions (e.g., back-to-back, open position, closed position) that meet the above description are defined as side-by-sides for the purposes of these Rules. Side-by-sides phrased properly to the music are allowed in all competitions.
- M. **Swing Content.** Recognizable swing patterns are required in all competitions. A minimum swing content of 80% is required in all Jack n' Jill and Strictly Swing divisions. A minimum swing content of 70% is required in the Classic division. A minimum swing content of 60% is required in the Showcase division.
- N. **WSDC.** World Swing Dance Council is a non-profit organization that promotes WCS competitions through its management of a points registry for registered dance events.
